5. The water is to be diverted from its source at the following point: SE 1/4 NE 1/4 Section 8, T.14S.,

R. 65E., M.D.B.&M., or at a point from which the E 1/4 corner of
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
said Section 8 bears S. 49° 25' E. a distance of 1,645.32 feet.
it should be stated.

6. Place of use Portion of Section 5, T.15S., R.66E., M.D.B.&M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about..... January 1stand end about..... December 31stof each year.
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) The water from this well and
from four (4) other wells will be conducted by pipeline to one
central collection place near the southeast corner of Section 8,
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits,
thence it will be conducted by an adequate pipeline to its place
of use in Section 5, T.15S., R.66E.

9. Estimated cost of works..... Constructed

10. Estimated time required to construct works..... Constructed

The quantity applied for hereunder is 160 acre-feet per year
11. Remarks and represents water that was believed to have been covered
by Permit 22635. A question has now arisen as to the quantity
entitlement allowable under said Permit 22635. Nevada Power Co.
has been using the said 160 annual acre-feet of water since May, 1965
which use has not caused any interference to any water owners in
the affected area. Upon approval of this application the aforesaid
Permit 22635 will be changed from 185 to 25 acre-feet per year. This
industrial water is used for cooling tower makeup in connection with
Nevada Power Company's steam electric generating station located in
Moapa, Nevada serving the electric needs of Las Vegas, Nevada.
Use Map filed under Permit 22632.

Applicant Clarence A. Lewis and/or
Clarvid Arthur Lewis

By s/ Clarvid A. Lewis

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
following limitations and conditions: This permit is issued subject to all existing
rights on the source. It is understood that the amount of water herein
granted in only a temporary allowance and that the final water right
obtained under this permit will be dependent upon the amount of water
actually placed to beneficial use. It is also understood that this
right must allow for a reasonable lowering of the static water level
at permittee's well due to other ground water development in the area.
A substantial weir or other type of measuring device must be installed
and measurements of water use kept. The well shall be equipped with
a 2-inch opening for measuring depth to water. If well is flowing,
a valve must be installed and maintained to prevent waste. The State
retains the right to regulate the use of the water herein granted at
any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not to exceed 1.2 cubic feet per second but not to exceed 160
acre feet annually

Actual construction work shall begin on or before October 10, 1970

Proof of commencement of work shall be filed before November 10, 1970

Work must be prosecuted with reasonable diligence and be completed on or before October 10, 1970

Proof of completion of work shall be filed before November 10, 1970

Application of water to beneficial use shall be made on or before October 10, 1970

Proof of the application of water to beneficial use shall be filed on or before November 10, 1970

Map in support of proof of beneficial use shall be filed on or before
